

UNIVERSITY OF ZAGREB SCHOOL OF MEDICINE

Plan of the course

Psychological Medicine

Academic year **2016/2017**

prof. dr. sc. Rudolf Gregurek

I. COURSE AIMS

Aims of the subject Psychological medicine are to acquaint medical students with emotional and other mental influences which facilitate or hamper patient – doctor encounter or relationship.

Subject also concerns with personality development from early childhood till adulthood, because of its profound influence on capacity for interpersonal relationships in general.

Emphasis is put on differences between someone's authenticity or someone's exaggerated use of defense mechanisms in doctor –patient encounter / relationship. Further on, subject deals with capacity for tact, empathy, and the ability for their improvement.

Knowledge and skills acquired during the course relate to the work with adults and children as well as with their parents / families.

II. COURSE STRUCTURE
