

**Schedule of courses
2nd year 2016/2017**

1	HISTOLOGY AND EMBRYOLOGY						MEDICAL CHEMISTRY AND BIOCHEMISTRY II						HOLIDAYS						PHYSIOLOGY						IMMUNOLOGY						PSYCHOLOGICAL MEDICINE						FUNDAMENTALS OF NEUROSCIENCE						ELECTIVE: MEASUREMENT AND ANALYSIS OF HUMAN LOCOMOTION					
2																																																
3																																																
4																																																
5																																																
6																																																
7	MEDICAL SOCIOLOGY						PHYSIOLOGY						IMMUNOLOGY						PSYCHOLOGICAL MEDICINE						FUNDAMENTALS OF NEUROSCIENCE						ELECTIVE: MEASUREMENT AND ANALYSIS OF HUMAN LOCOMOTION																	
8																																																
9																																																
10																																																
11																																																
12																																																
13	MEDICAL SOCIOLOGY						PHYSIOLOGY						IMMUNOLOGY						PSYCHOLOGICAL MEDICINE						FUNDAMENTALS OF NEUROSCIENCE						ELECTIVE: MEASUREMENT AND ANALYSIS OF HUMAN LOCOMOTION																	
14																																																
15																																																
16																																																
17																																																
18																																																
19	MEDICAL SOCIOLOGY						PHYSIOLOGY						IMMUNOLOGY						PSYCHOLOGICAL MEDICINE						FUNDAMENTALS OF NEUROSCIENCE						ELECTIVE: MEASUREMENT AND ANALYSIS OF HUMAN LOCOMOTION																	
20																																																
21																																																
22																																																
23																																																
24																																																
25	MEDICAL SOCIOLOGY						PHYSIOLOGY						IMMUNOLOGY						PSYCHOLOGICAL MEDICINE						FUNDAMENTALS OF NEUROSCIENCE						ELECTIVE: MEASUREMENT AND ANALYSIS OF HUMAN LOCOMOTION																	
26																																																
27																																																
28																																																
29																																																
30																																																
31	MEDICAL SOCIOLOGY						PHYSIOLOGY						IMMUNOLOGY						PSYCHOLOGICAL MEDICINE						FUNDAMENTALS OF NEUROSCIENCE						ELECTIVE: MEASUREMENT AND ANALYSIS OF HUMAN LOCOMOTION																	
32																																																
33																																																
34																																																
35																																																
36																																																
37	MEDICAL SOCIOLOGY						PHYSIOLOGY						IMMUNOLOGY						PSYCHOLOGICAL MEDICINE						FUNDAMENTALS OF NEUROSCIENCE						ELECTIVE: MEASUREMENT AND ANALYSIS OF HUMAN LOCOMOTION																	
38																																																
39																																																
40																																																
41																																																
42																																																
43																																																

CROATIAN LANGUAGE 2 course - on Tuesdays at 4pm
 FMS 2 (CS)- on Tuesdays: 4.10.2016, 11.10.2016 and 18.10.2016, from noon until 4pm
 FMS 2 (EM)- on Wednesdays from 28.9.2015 until 9.11.2015 from 3pm until 5pm
 PHYSICAL EDUCATION
